

Step 1 : Ensure the color mode in CMYK

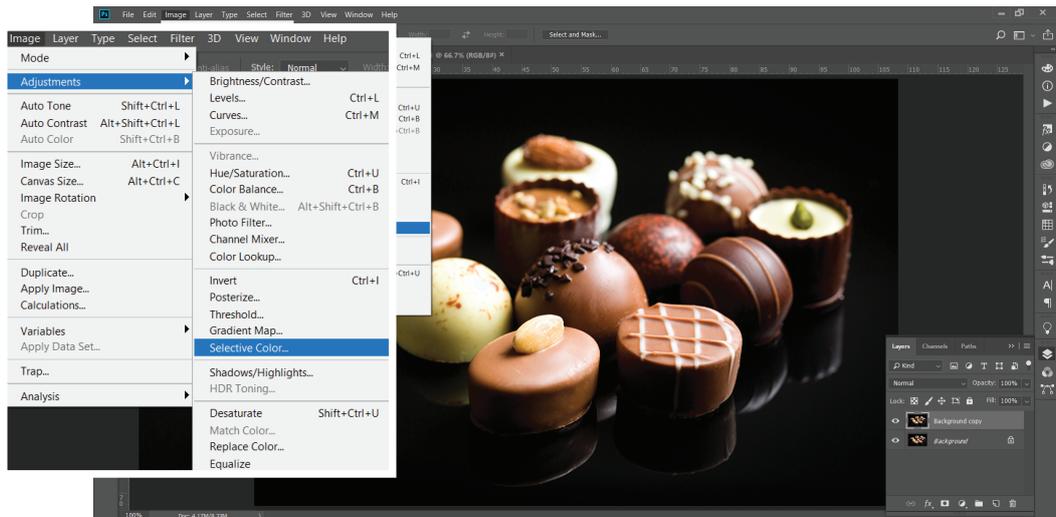

Step 2 : Go to Window > Info to get the CMYK % in details

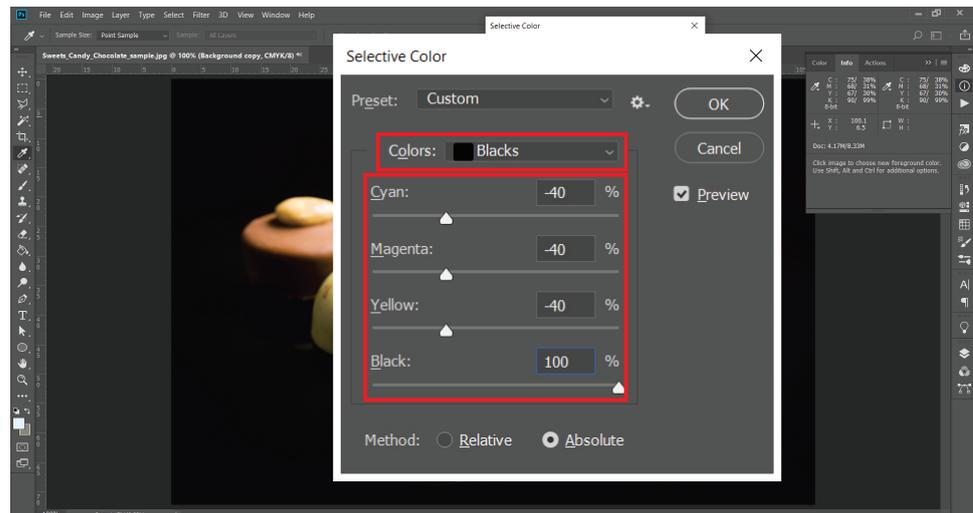

Step 3 : Point the background then can see the color % shown on the right side

Step 4 : Go to Image > Adjustment > Selective Color to adjust color %

Step 5 : Choose Black and adjust the C,M,Y,K based on your requirement (Image just a sample)

Step 6 : Point the background again, the color % will show on the left side. Click OK when confirm
